Re: Mining Plan Modification on Federal Gilsonite Lease UTU-0122694, dated: October 21, 2002

Dear Mr. Ziegler:

Background- The Bureau of Land Management (BLM) Utah State Office, received your mine plan modification on October 22, 2002, modified on April 8, 2004. While we were working on the plan, we discovered that there are some old workings in the area that require reclamation. There is an old water tank and an old bathhouse concrete pad that requires removal. This work can be done at any time. At the latest it should be done at the same time that the new emergency hoist is put into place.

Approval- BLM approves the placement of the emergency hoist on the old collar of the Tom Taylor mine, a hoist house located on a concrete pad with an associated propane tank to run the hoist as shown on Map 1.

Previous Approvals- Ziegler must abide by all previous lease terms, conditions, stipulations/ and all previous mine plan condition of approvals.

NEPA- This action is covered by a Categorical Exclusion number 2004-498 of the VEO.

RECEIVED

OCT 28 2004

DIV. OF OIL, GAS & MINING

For further information contact Mr. Stan Perkes at (801) 539-4036.

Sincerely,

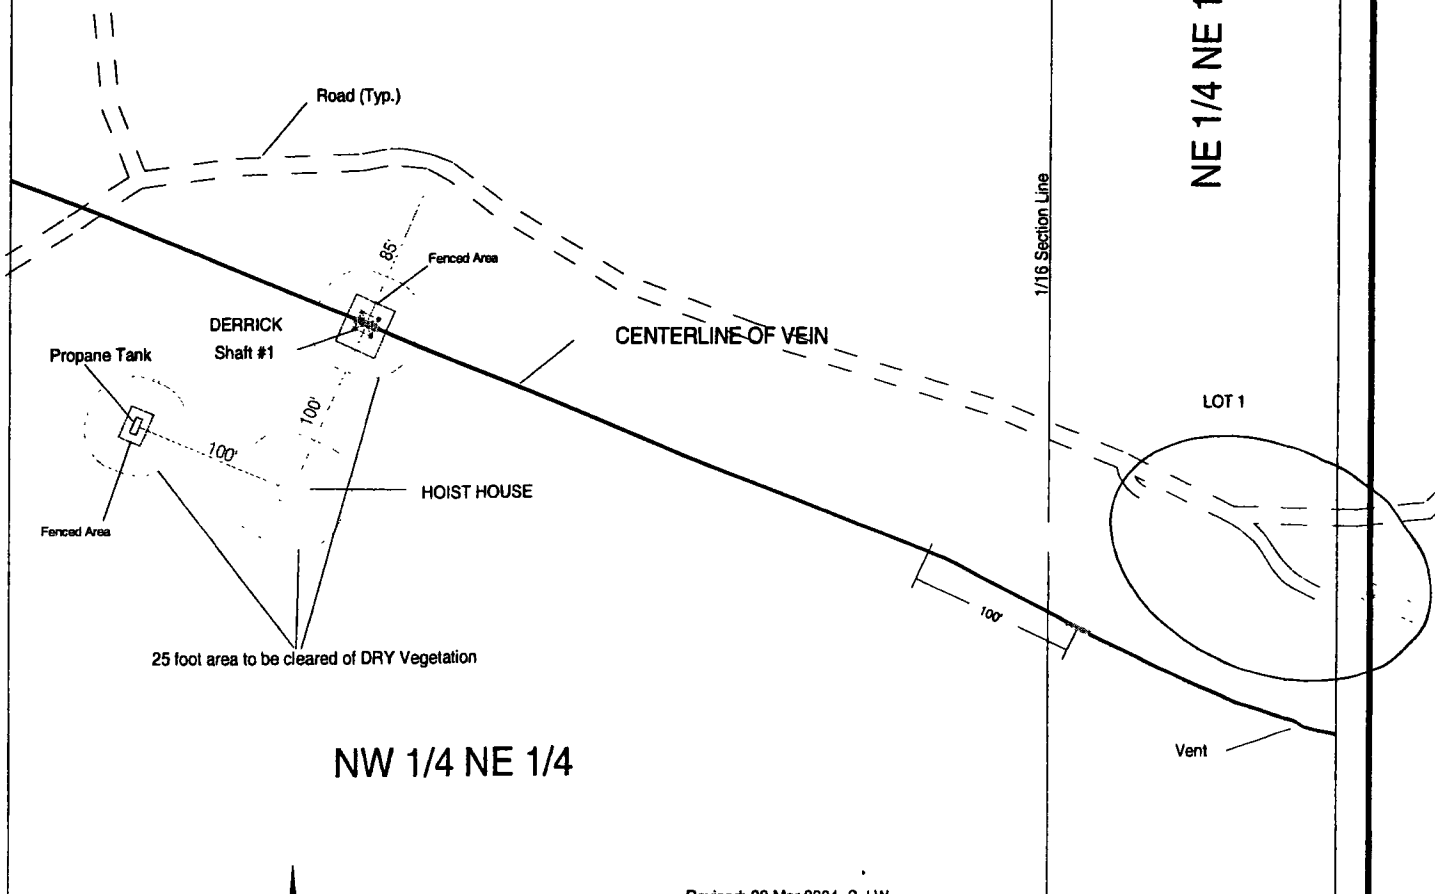

James F. Kohler
Chief, Solids Minerals Branch
